| iPhone 4 (AppRadio Mode Compatible)                       |
| iPhone 3GS  |
| iPod touch (2nd, 3rd, 4th, and 5th* generation)           |
| iPod classic*   |
| iPod nano* (3rd, 4th, 5th, 6th, and 7th generation)       |

Notes: Receiver may not operate other iPod or iPhone models. Compatibility with unit and operations may vary depending on the software version.

## Technologies

### How to Use AppRadio Mode

AppRadio Mode (iPhone connectivity example shown)

Step 1

Install the AppRadio app and other 3rd party apps to your iPhone.

Step 2

After launching the app, connect your iPhone to the receiver using the AppRadio Mode compatible cable. Pressing the "MODE" button lets you change to the AppRadio Mode's Home display screen.

Step 3

Through the display of the AV receiver, you can fully control apps compatible with AppRadio Mode.

## ADVANCE SOUND RETRIEVER

Hear the detail, warmth and clarity, the way the artist intended it, from all of your highly compressed MP3 and WMA files stored on USB device, iPod®, Android\*\* phone and portable media players. By restoring data (especially higher frequencies) that tend to get lost in the digital compression process, Pioneer's Advanced Sound Retriever technology enhances audio reproduction nearly all the way up to 20 kHz frequencies.

## Main Specifications

| DISPLAY SECTION  |  |
