- Enjoy superior in-car AV performance with 13-Band Graphic EQ, FLACcodec playback* and other high quality functions.

Main Features

- Direct Control for iPod/iPhone (USB/Bluetooth)
- Direct Control for Certain Android Phones(USB/Bluetooth)
- Works with Spotify® (iPhone/Android)
- Built-in Bluetooth Wireless Technology(Hands-Free Calling/Wireless Audio)
- Siri Eyes Free
- SR Air
- Rotary Volume Control

iPod/iPhone Compatibility

Made for
iPhone 6 Plus, iPhone 6 (AppRadio Mode Compatible)
iPhone 5s, iPhone 5c, iPhone 5 (AppRadio Mode Compatible)
iPhone 4s (AppRadio Mode Compatible)
iPhone 4 (AppRadio Mode Compatible)
iPhone 3GS
iPod touch (2nd, 3rd, 4th, and 5th* generation)
iPod classic*
iPod nano* (3rd, 4th, 5th, 6th, and 7th generation)

Notes: Receiver may not operate other iPod or iPhone models. Compatibility with unit and operations may vary depending on the software version.

Technologies

How to Use AppRadio Mode

AppRadio Mode (iPhone connectivity example shown)

Step 1

Install the AppRadio app and other 3rd party apps to your iPhone.

Step 2

After launching the app, connect your iPhone to the receiver using the AppRadio Mode compatible cable. Pressing the "MODE" button lets you change to the AppRadio Mode's Home display screen.

Step 3

Through the display of the AV receiver, you can fully control apps compatible with AppRadio Mode.

AppRadio MODE

With App Radio Mode, Pioneer has taken the technology from our revolutionary, game-changing App Radio and placed it in the AVH-X8750BT, so you can experience control of compatible Smartphone apps directly on your dash. When connected to an iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s, iPhone4 or compatible Android smartphone with the correct interface cable (sold separately) and loaded with Pioneer's free App Radio application, you can enjoy full on-screen access and control of your contacts, calendar, maps, and more.

ADVANCE SOUND RETRIEVER

Hear more detail, warmth and clarity that the artist originally wanted you to hear from MP3, WMA and AAC files stored on your CD, USB Device, SD/SDHC Memory Card, iPod/iPhone, Android phone and portable media players. Pioneer's Advanced Sound Retriever technology benefits audio reproduction performance by enhancing data (especially high-frequency data) that tends to get lost in the digital compression process.

MIXTRAX

Enjoy your beats in an automatic non-stop mix or prepare mixes with the software or app. Mixtrax creates non-stop mixes of your tunes so you can hear your music a whole new way. It breathes new life into the music you already know well and makes the time you spend listening to music even more special. The experience that will change the way you listen to music begins here.

Bluetooth®

Bluetooth Wireless Technology makes hands-free operation comfortable and safe while driving.
