About this manual:

• In the following instructions, a USB memory or USB audio player are referred to as “USB device”.
• When an iPhone is connected to the unit, the source name on the unit appears as [iPod]. Please note that this unit supports only iPhones (iPhone 5s or later) regardless of the source name (page 30).
Getting Started

Basic operation

SPH-C10BT

Optional remote control
The remote control CD-SR110 is sold separately.

When this unit’s blue/white lead is connected to the vehicle’s auto-antenna relay control terminal, the vehicle’s antenna extends when this unit’s source is turned on. To retract the antenna, turn the source off.

Detaching the front panel

Detach the front panel to prevent theft. Remove any cables and devices attached to the front panel and turn off the unit before detaching it.

Detach

Attach

Important

• Avoid subjecting the front panel to excessive shock.
• Keep the front panel out of direct sunlight and high temperatures.
• Always store the detached front panel in a protective case or bag.

The microprocessor must be reset in the following situations:

1. Before using this unit for the first time after installation
2. If the unit fails to operate properly
3. When strange or incorrect messages appear on the display

1 Remove the front panel (page 4).
2 Press the RESET button with a pointed instrument longer than 8 mm.
**Operating the smartphone holder**

⚠️ **WARNING**

- Detach the smartphone from the holder while driving under bad road conditions since the smartphone may fall from the holder.
- Do not leave the smartphone attached onto the holder.
- Do not use the holder if you experience difficulty when attaching the smartphone onto the holder.
- Do not operate the holder or smartphone while driving.
- Be careful not to get your hands and fingers caught in the moving parts while operating the holder.
- Do not attach the smartphone to the holder in a location where it may drop on the driver’s feet.
- Do not set the holder near the air conditioner vent.
- Make sure that nothing affects the operation of the air bags or vehicle operating systems, safety feature or hazard lamps.
- PIONEER IS NOT RESPONSIBLE AND DISCLAIMS LIABILITY FOR ANY DAMAGES CAUSED THROUGH USE OF THE PRODUCT OR VEHICLE.

---

**Removing the smartphone holder**

1. Detach the front panel (page 4).
2. Pull out the holder by holding the anti slip portion on the edge of the holder until the holder is completely visible.

⚠️ **CAUTION**

Never pull up the holder until the holder is completely visible.

3. Pull up the holder vertically.
**CAUTION**

Make sure that the line can be seen when the holder is pulled up vertically.

4 Attach the front panel to the unit (page 4).

---

**Adjusting the smartphone holder horizontally**

1 Slide the holder while the holder is in a horizontal position.
NOTE
Detach the smartphone from the device while adjusting the holder.

2 Pull up the holder.

Attaching the smartphone to the holder

⚠️ CAUTION
- Depending on the shape of the smartphone, smartphone case or cover, it may not be attachable to the holder.
- Be careful not to pinch your fingers.

Compatible smartphone size
H: 58 mm - 170 mm
W: 58 mm - 87 mm
D: 4 mm - 10 mm
Weight: under 0.25 kg

1 Hook the smartphone on the upper arm and then push it into the lower arm.
2 Slide the lower arms position to avoid hitting the lower arm and smartphone buttons against each other.

NOTES

• Make sure that the smartphone is held properly on the holder.
• When the smartphone buttons come in contact with the upper or lower arms, adjust the smartphone's position or turn the smartphone upside down.
Adjusting the smartphone holder

Adjusting the holder angle

The holder angle range:
Downward 45° to upward 100°

⚠️ WARNING
Do not set the holder where it may (i) interfere with vehicle panels or switches or (ii) impair the driver’s performance.

Turning the smartphone holder from a horizontal to a vertical position
1 Rotate the smartphone holder 90° clockwise.

⚠️ CAUTION
Be careful to not drop the smartphone when the smartphone is attached to the holder while rotating.

Turning the smartphone holder from a vertical to a horizontal position
1 Rotate the smartphone holder 90° anticlockwise.
CAUTION
Be careful to not drop the smartphone when the smartphone is attached to the holder while rotating.

Detaching the smartphone from the holder
1 Pull out the smartphone while pushing up the upper arm with the smartphone.

CAUTION
• Be careful to not drop the smartphone.
• Do not use the holder when the smartphone is detached.

Storing the smartphone holder
1 Detach the front panel (page 4).
2 Fold the holder horizontally.
3 Push the holder completely into the unit.
4 Attach the front panel to the unit (page 4).

**INITIAL settings**

1. Press and hold † until the unit turns off.
2. Press and hold ‡ to display the main menu.
3. Press ‣ to select [INITIAL], then press † to confirm.
4. Press ‣ to select an option, then press † to confirm.

### Radio

#### Receiving preset stations

1. Press ` ` to select [RADIO].
2. Press ` ` to select the band from [FM1], [FM2], [FM3], [AM], [SW1] or [SW2].
3. Press ` ` or ` `.

**TIP**

The ` ` buttons can be also used to select a preset station when [SEEK] is set to [P.CH] in the FUNCTION settings (page 22).

#### Best stations memory (BSM)

The six strongest stations are stored then select the channel by pressing ` `/ ` `. 

1. After selecting the band, press and hold ` ` to display the main menu.
2. Press ` ` to select [FUNCTION], then press ` ` to confirm.
3. Press ` ` to select [BSM], then press ` ` to confirm.

#### To seek a station manually

1. After selecting the band, press ` `/ ` ` to select a station.
   
   Press and hold ` `/ ` ` then release to seek an available station. Scanning stops when the unit receives a station. To cancel seek tuning, press ` `/ ` `. 

**NOTE**

[SEEK] needs to be set to [MANUAL] in the FUNCTION settings (page 22).

To store stations manually
This function is only available on Pioneer Smart Sync (page 17). For details, see the application's help section.

Using PTY functions
The unit searches for a station by PTY (program type) information.
1 Press and hold $2 during FM reception.
2 Press $ to select [FUNCTION], then press $ to confirm.
3 Press $ to select [PTY], then press $ to confirm.
4 Press $ to select a program type from [NEWS/INF], [POPULAR], [CLASSICS] or [OTHERS].
5 Press $.
   The unit begins to search for a station. When it is found, its program service name is displayed.

NOTES
• To cancel the search, press $.
• The program of some stations may differ from that indicated by the transmitted PTY.
• If no station is broadcasting the type of program you searched for, [NOTFOUND] is displayed for about two seconds and then the tuner returns to the original station.

USB/iPhone

Playing back
Disconnect headphones from the device before connecting it to the unit.

USB devices (including Android™)/iPhone
1 Open the USB port cover.
2 Plug in the USB device/iPhone using an appropriate cable.

NOTES
• To automatically switch to USB source when a USB device/iPhone is connected to the unit, set [USB AUT] to [Y] in the SYSTEM settings (page 24).
• To use iPhone source, [APP CTL] needs to be switched to the appropriate settings (page 24).
**CAUTION**

Use a USB cable (sold separately) to connect the USB device as any device connected directly to the unit will protrude out from the unit, which could be dangerous.

Before removing the device, stop playback.

**AOA connections**

A device running Android OS 4.1 or later installed and also supports AOA (Android Open Accessory) 2.0 can be connected to the unit via AOA, using the cable supplied with the device.

**NOTE**

If you use an AOA connection, [APP CTL] needs to be set to [WIRED] in the SYSTEM settings (page 24).

---

**Operations**

You can make various adjustments in Pioneer Smart Sync (page 17).

<table>
<thead>

</tr>
<tr>
<td>Fast forward or reverse*2</td>
<td>Press and hold ≪ or ≫.</td>
</tr>
</tbody>
</table>

*1 Compressed audio files only
*2 When you use the fast forward or reverse function while playing a VBR file, the playback time may be not correct.

---

**Bluetooth**

**Bluetooth connection**

**Important**

If ten or more Bluetooth devices (e.g. a phone and separate audio player) are connected, they may not work properly.

**TIP**

The next connection to the unit is performed automatically if the Bluetooth device has been connected previously in the following steps.

1. Turn on the Bluetooth function of the device.
2. Select the unit name shown in the device display.
3 Make sure the same 6-digit number appears on this unit and the device, then select [Y] if the 6-digit numbers displayed on this unit and the device are the same.

**Bluetooth reconnection**
Once the Bluetooth connection is established with the device, you can connect the device from the unit.

1 Turn on the Bluetooth function of the device.
2 Press [ ].
   
   [DEV LIST] appears.
3 Press  to select the device.
4 Press  to confirm.

---

**Bluetooth telephone**

First, make a Bluetooth connection with the Bluetooth telephone (page 14). Up to two Bluetooth telephones can be connected simultaneously.

⚠️ **Important**
- Leaving the unit on standby to connect to your phone via Bluetooth while the engine is not running can drain the vehicle's battery.
- Be sure to park your vehicle in a safe place and apply the parking brake before operation.

---

**To make a phone call**
This function is only available on Pioneer Smart Sync (page 17). For details, see the application's help section.

---

**To answer an incoming call**
1 Press any button when a call is received.

**TIP**
When two phones are connected to the unit via Bluetooth and there is an incoming call while one phone is being used for a call, a message will appear in the display. To answer that incoming call, you need to end the existing call.

---

**Basic operations**
You can make various adjustments in Pioneer Smart Sync (page 17).

<table>
<thead>
<tr>
<th>Purpose</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>End a call</td>
<td>Press [ ]</td>
</tr>
</tbody>
</table>
Voice recognition
This function is only available when an iPhone/Android device equipped with voice recognition is connected to the unit via Bluetooth.
1 Press 📞 then talk into the microphone to input voice commands.

To exit the voice recognition mode, press and hold 📞.

NOTE
For details on the voice recognition features, refer to the manual supplied with your device.

Bluetooth audio

Important
• Depending on the Bluetooth audio player connected to this unit, the available operations will be limited to the following two levels:
  – A2DP (Advanced Audio Distribution Profile) can only play back songs on your audio player.
  – AVRCP (Audio/Video Remote Control Profile) can perform functions such as playback, pause, select song, etc.
• The sound of the Bluetooth audio player will be muted when the phone is in use.
• When the Bluetooth audio player is in use, you cannot connect to a Bluetooth telephone automatically.
• Depending on the type of Bluetooth audio player you have connected to this unit, operation and information displayed may vary based on availability and functionality.

1 Make a Bluetooth connection with the Bluetooth audio player.
2 Press 🎵 to select [BT AUDIO] as the source.
3 Start playback on the Bluetooth audio player.

NOTE
You must reconnect the Bluetooth connection when the source is switched or the unit is turned off.

TIP
When more than two and up to five devices are registered to the unit via Bluetooth, you can switch the Bluetooth device by playing back songs on the device. By doing so, playing back a song from the Bluetooth device of each passenger is easily available. However, depending on the usage conditions, multiple connections may not be available and the audio files/songs may not be able to be played back properly.
Basic operations
You can make various adjustments in Pioneer Smart Sync (page 17).

<table>

Using Pioneer Smart Sync/APP

Pioneer Smart Sync is the application that intelligently brings your maps, messages, and music together in the vehicle.
You can operate the unit from Pioneer Smart Sync installed on an iPhone/Android device. In some cases, you can control aspects of the application, such as source selection, pause, etc., by using the unit.
For details on what operations are available on the application, see the application’s help section.

NOTE
The APP source is not available when a Pioneer Smart Sync connection is not made.

WARNING
Do not attempt to operate the application while driving. Make sure to pull off the road and park your vehicle in a safe location before attempting to use the controls on the application.

For iPhone users
This function is compatible with iOS 10.3 or later.
You can download Pioneer Smart Sync on iTunes App Store.

For Android device users
This function is compatible with devices that have Android OS 5.0 or later installed.
You can download Pioneer Smart Sync on Google Play™.
NOTE
Some Android devices connected via AOA 2.0 may not work properly or emit sounds due to their own software design, regardless of the OS version.

What kind of function does the application have?

Promoting the use of the unit
The interface of the unit can be evolved by using your iPhone/Android device.

Image (example):

![Image example](image_url)

Examples:
– Selecting a source of the unit
– Listening to the music on your iPhone/Android device
– Controlling the sound field intuitively and setting the illumination colour
– Controlling your connected Bluetooth device

Extending the functions of the unit by using the application
The following functions, which are unavailable on the unit alone, are available by making a Pioneer Smart Sync connection.

<table>
<thead>
<tr>
<th>Menu Item (example)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Using a navigation application</td>
<td>You can specify and start the navigation application installed on your device.</td>
</tr>
<tr>
<td>Message reading</td>
<td>You can read messages received from the apps installed on your device.</td>
</tr>
</tbody>
</table>
NOTES
• Some functions may be restricted depending on the connection conditions with the application.
• The 31 Band EQ setting is converted into 13 bands when a music source from this product is engaged.

TIP
It is recommended to enter the search term "Pioneer Smart Sync" in the search field to search for the application.

Making a connection with Pioneer Smart Sync

1 Connect this unit with the mobile device via Bluetooth.
   • iPhone/Android device via Bluetooth (page 14)
     Pioneer Smart Sync on the iPhone/Android device starts automatically.

   NOTE
   [APP CTL] needs to be set to [BT] in the SYSTEM settings to connect to the Pioneer Smart Sync automatically (page 24).

Pioneer Smart Sync connection via wired connection
You can also make the Pioneer Smart Sync connection via USB connection.

1 Press and hold ** to display the main menu.
2 Press > to select [SYSTEM], then press ** to confirm.
3 Press > to select [APP CTL], then press ** to confirm.
4 Press > to select [WIRED], then press ** to confirm.
   Pioneer Smart Sync on the iPhone/Android device starts automatically.
NOTES
• If Pioneer Smart Sync has not been installed on your iPhone/Android device yet, a message that prompts you to install the application will appear on your iPhone/Android device.
• When you connect a mobile device other than an iPhone/Android device, it may not operate correctly depending on your mobile device.
• To connect to the Pioneer Smart Sync manually, press and hold \\.

Listening to music on your device

1 Press \ to select [APP].

Parking Sensor

A separately sold parking sensor (e.g. ND-PS1) is required to utilize the parking sensor function which includes features indicates the distance from objects by sound and unit display colours.

Sensor functions

NOTE
The parking sensor function is only available when the gear shift is in the REVERSE (R) position and [SENSOR] is set to [Y] in the P.SENSOR settings (page 25).

<table>
<thead>
<tr>
<th>Distance to the objective</th>
<th>Unit display colour and warning sound</th>
</tr>
</thead>
<tbody>
<tr>
<td>More than 160 cm</td>
<td>Green with no sound</td>
</tr>
<tr>
<td>160 cm to 90 cm</td>
<td>Yellow with a slow intermittent beep sound</td>
</tr>
<tr>
<td>90 cm to 40 cm</td>
<td>Orange with an intermittent beep sound</td>
</tr>
<tr>
<td>Less than 40 cm</td>
<td>Red with a continuous beep sound</td>
</tr>
</tbody>
</table>

TIP
• The shortest distance in the detected distance range is applied on the unit’s indicator.
• The left/right illumination on the unit shows the distance between the two sensors on the left/right sides and the object.
• The colour of the illumination displays the shorter distance of one of the two sensors.

Settings

You can adjust various settings in the main menu.
NOTE
The setting operation from this unit is not available when Pioneer Smart Sync is connected.

1 Press and hold to display the main menu.

2 Press to select one of the categories below, then press to confirm.
   - FUNCTION settings (page 21)
   - AUDIO settings (page 22)
   - SYSTEM settings (page 23)
   - ILLUMINATION settings (page 25)
   - P SENSOR settings (page 25)

3 Press to select the options, then press to confirm.

FUNCTION settings

The menu items vary according to the source.

### Troubleshooting

The display automatically returns to the normal display.
→ No operations have been made for about 30 seconds.
   – Perform an operation.

The sound is intermittent.
→ You are using a device, such as a cellular phone, that may cause audible interference.
   – Move electrical devices that may be causing the interference away from the unit.

The sound from the Bluetooth audio source is not played back.
→ There is a call in progress on a Bluetooth-connected cellular phone.
   – The sound will be played back when the call is terminated.
→ A Bluetooth-connected cellular phone is currently being operated.
   – Stop using the cellular phone.
→ The connection between the unit and the cellular phone is not established correctly after a call made by a Bluetooth-connected cellular phone.
   – Make a Bluetooth connection between the unit and the cellular phone again.

### Error messages

#### Common

**AMP ERR**
→ This unit fails to operate or the speaker connection is incorrect.
→ The protective circuit is activated.
   – Check the speaker connection.

→ Turn the ignition switch OFF and back to ON again. If the message remains, contact your dealer or an authorized Pioneer Service Station for assistance.

**NO XXXX** (NO TITLE, for example)
→ There is no embedded text information.
   – Switch the display or play another track/file.

**USB device/iPhone**

**READING**
→ Sometimes there is a delay between the start of playback and when you start to hear any sound.
   – Wait until the message disappears and you hear sound.

**NO AUDIO**
→ There are no songs.
   – Transfer the audio files to the USB device and connect.
→ The connected USB device has security enabled.
   – Follow the USB device instructions to disable the security.

**SKIPPED**
→ The connected USB device contains DRM protected files.
   – The protected files are skipped.

**PROTECT**
→ All the files on the connected USB device are embedded with DRM.
   – Replace the USB device.

**N/A USB**
→ The connected USB device is not supported by this unit.
   – Disconnect your device and replace it with a compatible USB device.
HUB ERR
→ The USB device connected via a USB hub is not supported by this unit.
  – Connect the USB device directly to this unit using a USB cable.

CHECKUSB
→ The USB connector or USB cable has short-circuited.
  – Check that the USB connector or USB cable is not caught in something or damaged.
→ The connected USB device consumes more than maximum allowable current.
  – Disconnect the USB device and do not use it. Turn the ignition switch OFF and back to ACC or ON. Connect only compliant USB devices.
→ The iPhone operates correctly but does not charge.
  – Make sure the connection cable for the iPhone has not shorted out (e.g., not caught in metal objects). After checking, turn the ignition switch OFF and back to ON, or disconnect the iPhone and reconnect.

ERROR-19
→ Communication failed.
  – Perform one of the following operations, then return to the USB source.
    • Turn the ignition switch OFF and back to ON.
    • Disconnect the USB device.
    • Change to a different source.
→ iPhone failure.
  – Disconnect the cable from the iPhone. Once the iPhone’s main menu is displayed, reconnect the iPhone and reset it.

ERROR-23
→ USB device was not formatted properly.
  – Format the USB device with FAT12, FAT16 or FAT32.

ERROR-16
→ The iPhone firmware version is old.
  – Update the iPhone version.
→ iPhone failure.
  – Disconnect the cable from the iPhone. Once the iPhone’s main menu is displayed, reconnect the iPhone and reset it.

STOP
→ There are no songs in the current list.
  – Select a list that contains songs.

NO DEV
→ No Bluetooth device found.
  – Connect the unit and iPhone via Bluetooth (page 14).

CN FAIL
→ Bluetooth connection with iPhone failed.
  – Make a connection again on the mobile device.

DISCNCT
→ Bluetooth connection lost.
  – Make a connection again on the mobile device.

Bluetooth device

ERROR-10
→ The power failed for the Bluetooth module of the unit.
  – Turn the ignition switch OFF and back to ACC or ON.

APP

CNCT APP
→ Pioneer Smart Sync connection is not made.
  – Make a connection with Pioneer Smart Sync (page 17).
Handling guidelines

USB storage device
• Connections via USB hubs are not supported.
• Firmly secure the USB storage device before driving. Do not let the USB storage device fall onto the floor, where it may become jammed under the brake or accelerator pedal.
• Depending on the USB storage device, the following problems may occur.
  – Operations may vary.
  – The storage device may not be recognized.
  – Files may not be played back properly.
  – The device may cause audible interference when you are listening to the radio.

iPhone
• Do not leave the iPhone in places with high temperatures.
• Firmly secure the iPhone when driving. Do not let the iPhone fall onto the floor, where it may become jammed under the brake or accelerator pedal.
• Incompatible text saved on the iPhone will not be displayed by the unit.

Compressed audio compatibility
• Only the first 32 characters can be displayed as a file name (including the file extension) or a folder name.
• The unit may not work properly depending on the application used to encode WMA files.
• There may be a slight delay at the start of the playback of audio files embedded with image data, or audio files stored on a

USB device with numerous folder hierarchies.

⚠️ CAUTION
• Pioneer cannot guarantee compatibility with all USB mass storage devices, and assumes no responsibility for any loss of data on media players, smartphones, or other devices while using this product.
• Do not leave a USB storage device in any place that is subject to high temperatures.

WMA files

<table>
<thead>
<tr>
<th>File extension</th>
<th>.wma</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bit rate</td>
<td>48 kbps to 320 kbps (CBR), 48 kbps to 384 kbps (VBR)</td>

<td><strong>Quantization bit rate</strong></td>
<td>8/16/24 bit</td>
</tr>
<tr>
<td><strong>Channel mode</strong></td>
<td>1/2 ch</td>
</tr>
</tbody>
</table>

**USB device**

- There may be a slight delay when starting playback of audio files on a USB storage device with numerous folder hierarchies.

<table>
<thead>
<tr>
<th><strong>Playable folder hierarchy</strong></th>
<th>Up to eight tiers (A practical hierarchy is less than two tiers.)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Playable folders</strong></td>
<td>Up to 1 500</td>
</tr>
<tr>
<td><strong>Playable files</strong></td>
<td>Up to 15 000</td>
</tr>
<tr>
<td><strong>Playback of copyright-protected files</strong></td>
<td>Not compatible</td>
</tr>
<tr>
<td><strong>Partitioned USB device</strong></td>
<td>Only the first partition can be played.</td>
</tr>
</tbody>
</table>

**iPhone compatibility**

This unit supports only the following iPhone models. Older versions may not be supported.

Made for
- iPhone X
- iPhone 8
- iPhone 8 Plus
- iPhone 7
- iPhone 7 Plus
- iPhone SE
- iPhone 6s
- iPhone 6s Plus
- iPhone 6
- iPhone 6 Plus
- iPhone 5s

- Operations may vary depending on the generation and/or software version of the iPhone.
- Users of iPhone with the Lightning Connector should use the Lightning to USB Cable (supplied with iPhone).
- Refer to the iPhone manuals for information about the file/format compatibility.
- Audiobook, Podcast: Compatible

⚠️ **CAUTION**

Pioneer accepts no responsibility for data lost on the iPhone, even if that data is lost while this unit is used.

**Sequence of audio files**

The user cannot assign folder numbers and specify playback sequences with this unit. Sequence of audio file depends on the connected device. Note that the hidden files in a USB device cannot be played back.
Example of a hierarchy

![Diagram of a hierarchy with folders and audio files]

Level 1 Level 2 Level 3 Level 4
01 to 05: Folder number
1 to 6: Playback sequence

Specifications

General
Rated power source: 14.4 V DC (allowable voltage range: 12.0 V to 14.4 V DC)
Grounding system: Negative type
Maximum current consumption: 10.0 A
Dimensions (W × H × D):
  DIN
  Chassis: 178 mm × 50 mm × 165 mm
  Nose: 188 mm × 58 mm × 16 mm
  D
  Chassis: 178 mm × 50 mm × 165 mm
  Nose: 170 mm × 46 mm × 16 mm
Weight: 1 kg

Audio
Maximum power output:
  • 50 W × 4 ch/4 Ω (for no subwoofer)
  • 50 W × 2 ch/4 Ω + 70 W × 1 ch/2 Ω (for subwoofer)
Continuous power output:
  22 W × 4 (50 Hz to 15 000 Hz, 5 % THD, 4 Ω load, both channels driven)
Load impedance: 4 Ω (4 Ω to 8 Ω (2 Ω for 1 ch) allowable)
Preout maximum output level: 2.0 V
Built in equalizer:
  Frequency: 50 Hz/80 Hz/125 Hz/200 Hz/315 Hz/500 Hz/800 Hz/1.25 kHz/2 kHz/3.15 kHz/5 kHz/8 kHz/12.5 kHz
  Gain: ±12 dB
High pass filter:
  Frequency: 25 Hz/31.5 Hz/40 Hz/50 Hz/63 Hz/80 Hz/100 Hz/125 Hz/160 Hz/200 Hz/250 Hz
  Slope: −6 dB/oct, −12 dB/oct, −18 dB/oct, −24 dB/oct, OFF
Subwoofer/Low pass filter:
  Frequency: 25 Hz/31.5 Hz/40 Hz/50 Hz/63 Hz/80 Hz/100 Hz/125 Hz/160 Hz/200 Hz/250 Hz
  Slope: −6 dB/oct, −12 dB/oct, −18 dB/oct, −24 dB/oct, −30 dB/oct, −36 dB/oct, OFF
Phase: Normal/Reverse
Speaker level:
+10 dB to –24 dB (1 dB step)
Time alignment:
0 cm to 350 cm (2.5 cm/Step)

USB
USB standard specification: USB 2.0 full speed
Maximum current supply: 1.5 A
USB Protocol:
MSC (Mass Storage Class)
AOA (Android Open Accessory) 2.0
File system: FAT12, FAT16, FAT32
MP3 decoding format: MPEG-1 & 2 Audio Layer 3
WMA decoding format: Ver. 7, 8, 9, 9.1, 9.2 (2 ch audio)
AAC decoding format: MPEG-4 AAC (iTunes encoded only) (Ver. 10.6 and earlier)
FLAC decoding format: v1.2.1 (Free Lossless Audio Codec)
WAV signal format: Linear PCM (Non-compressed)

FM tuner
Frequency range: 87.5 MHz to 108.0 MHz
Usable sensitivity: 11 dBf (1.0 μV/75 Ω, mono, S/N: 30 dB)
Signal-to-noise ratio: 65 dB (IEC-A network)

AM tuner
Frequency range: 531 kHz to 1 602 kHz (9 kHz)
530 kHz to 1 640 kHz (10 kHz)
Usable sensitivity: 25 μV (S/N: 20 dB)
Signal-to-noise ratio: 60 dB (IEC-A network)

SW tuner
Frequency range:
2 300 kHz to 7 735 kHz (2 300 kHz to 2 495 kHz, 2 940 kHz to 4 215 kHz, 4 540 kHz to 5 175 kHz, 5 820 kHz to 6 455 kHz, 7 100 kHz to 7 735 kHz)
9 500 kHz to 21 975 kHz (9 500 kHz to 10 135 kHz, 11 580 kHz to 12 215 kHz, 13 570 kHz to 13 870 kHz, 15 100 kHz to 15 735 kHz, 17 500 kHz to 17 985 kHz, 18 015 kHz to 18 135 kHz, 21 340 kHz to 21 975 kHz)
Usable sensitivity: 28 μV (S/N: 20 dB)
Signal-to-noise ratio: 60 dB (IEC-A network)

Bluetooth
Version: Bluetooth 4.0 certified
Output power: +4 dBm Maximum (Power class 2)
BLE (Bluetooth Low Energy) Version: 4.0 certified
BLE (Bluetooth Low Energy) Output power: +3 dBm Maximum
Frequency band(s): 2 400 MHz to 2 483.5 MHz
Bluetooth profiles:
  GAP (Generic Access Profile)
  SDAP (Service Discovery Application Profile)
  HFP (Hands Free Profile) 1.6
  PBAP (Phone Book Access Profile)
  A2DP (Advanced Audio Distribution Profile)
  AVRCP (Audio/Video Remote Control Profile) 1.5
  SPP (Serial Port Profile) 1.1

NOTE
Specifications and the design are subject to modifications without notice.
