Notes: Receiver may not operate other iPod or iPhone models. Compatibility with unit and operations may vary depending on the software version.

Technologies

Bluetooth®

A Pioneer receiver with Built-in Bluetooth Wireless Technology not only makes Bluetooth hands-free function easy and safe to operate while driving — it also extends your enjoyment of wireless audio control and streaming.

AppRadio MODE

With App Radio Mode, Pioneer has taken the technology from our revolutionary, game-changing App Radio and placed it in the AVH-X8750BT, so you can experience control of compatible Smartphone apps directly on your dash. When connected to an iPhone 6 Plus, iPhone 6, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4s, iPhone4 or compatible Android smartphone with the correct interface cable (sold separately) and loaded with Pioneer's free App Radio application, you can enjoy full on-screen access and control of your contacts, calendar, maps, and more.

AUTO TIME ALIGNMENT

Time Alignment automatically estimates the delay from each speaker to driver's position and adjusts speaker output timing, so that sound from all speakers reaches the driver's ears in perfect sync.

MIXTRAX

Enjoy your beats in an automatic non-stop mix or prepare mixes with the software or app. Mixtrax creates non-stop mixes of your tunes so you can hear your music a whole new way. It breathes new life into the music you already know well and makes the time you spend listening to music even more special. The experience that will change the way you listen to music begins here.

MirrorLink™

By using the optional cable CD-MU200, you can directly access music, maps, and contacts on select MirrorLink™ certified devices via USB directly from the receiver's touchscreen.
