

Audio Receiver with MIXTRAX, and Direct Control for iPod/iPhone and Certain Android Phones

Key Selling Point

- Browse music files, access music apps, and extend your command of radio in new ways directly from the Pioneer ARC App.
- It makes even detailed EQ and other audio settings easy and intuitive using a smartphone touchscreen.
- Enhanced visual features make interior space richer.
- Flexible adjustment with Color Customization, Brightness and Dimmer Setting
- Superior visibility and contrast on Large VA LCD display with 2-line text

Main Features

- Flashing MIXTRAX
- Media App Control for iPod/iPhone/Android
- Pioneer ARC (iPhone/Android)
- Direct Control for iPod/iPhone and Certain Android Phones (USB)
- AAC Playback
- USB Quick Charge for Android (CDP)
- Prism-cut Rotary Volume Control
- Separated Dimmer Setting
- Separated Color Customization (More than 210,000 Colors)
- AUX Input (Front)

iPhone Compatibility

Made for
iPhone 7 Plus, iPhone 7
iPhone SE
iPhone 6s Plus, iPhone 6s, iPhone 6 Plus, iPhone 6
iPhone 5s, iPhone 5c, iPhone 5

Notes: Receiver may not operate other iPod or iPhone models. Compatibility with unit and operations may vary depending on the software version.

Technologies

MEDIA APP CONTROL

- Use music apps stored in your iPod, iPhone or Android phone for listening through the car speakers.
- Fast forward and reverse can be operated through the receiver.
- Media App Control boots up as a music source for quicker access to iPod, iPhone or Android phone app control.

Note: Not all apps will be compatible with Media App Control, which will provide limited, if any, control over the app.

USB QUICK CHARGE FOR ANDROID™ (CDP)

Pioneer's new audio receiver has a charging downstream port (CDP) providing up to 1.5 amperes to give an Android smartphone a quick charge.

Innovative Pioneer technology that creates a Non-Stop MIX with a range of DJ-inspired effects.

MIXTRAX Benefit

Pioneer applied its unique expertise to keep car entertainment flowing smoothly without interruption, so you can experience the intimate euphoria of listening to music that sounds as if a club DJ is there playing it.

* Depending on the file/song, sound effects may not be enabled for adding.

USB Source Change Function

ON The music source automatically changes to the connected source device.

OFF The music source being played on the receiver doesn't change, allowing the connected smartphone or portable media player to recharge while the music plays.

When the audio receiver is connected to a media player, smartphone or other device via USB, you can choose to set the USB Source Change function ON or OFF.

Pioneer ARC

Pioneer ARC

Original Pioneer ARC app lets you control and play various music sources and apps in your smartphone conveniently by operating Pioneer audio receiver or a smartphone (iPhone/iPod touch/Android device).

Accordingly, you can see Text Information, operate File/Folder/Browse, Streaming App Playback, Music Browser functions and listen to get the best out of your receiver by easily adjusting your EQ Settings, Crossover and Time Alignment all through your Smartphone with Pioneer ARC!"
