

Audio Receiver with MIXTRAX, Built-in Bluetooth®, and Direct Control for iPod/iPhone and Certain Android Phones

Key Selling Point

- Browse music files, access music apps, and extend your command of radio in new ways directly from the Pioneer ARC App.
- It makes even detailed EQ and other audio settings easy and intuitive using a smartphone touchscreen.
- Enhanced visual features make interior space richer.
- Flexible adjustment with Color Customization, Brightness and Dimmer Setting
- Superior visibility and contrast on Large VA LCD display with 2-line text
- Greatly improved connectivity to access various media with Wireless Audio Playback by Bluetooth and USB Direct control for iPod/iPhone and for certain Android Phones.

Main Features

- Bluetooth for Hands-Free Calling & Wireless Audio
- Siri Eyes Free
- AAC Playback
- Advanced Sound Retriever for Bluetooth Wireless Audio
- Two-Phone Full Time Connection
- Flashing MIXTRAX
- Pioneer ARC (iPhone/Android)
- Prism-cut Rotary Volume Control
- USB Quick Charge for Android (CDP)
- Direct Control for iPod/iPhone and Certain Android Phones (USB)
- Media App Control for iPod/iPhone/Android

| iPod classic | |
| iPod with video | |
| iPod nano (1st, 2nd, 3rd, 4th, 5th, 6th, and 7th generation) | |

Technologies

MIXTRAX

Pioneer applied its unique expertise to keep car entertainment flowing smoothly without interruption, so you can experience the intimate euphoria of listening to music that sounds as if a club DJ is there playing it.

* Depending on the file/song, sound effects may not be enabled for adding.

For iPhone and iPod: All Audio Receivers Compatible with iPod and iPhone
 For Android Phone: All Audio Receivers Compatible with Certain Android Phones

- Use music apps stored in your iPod, iPhone or Android phone for listening through the car speakers.
- Fast forward and reverse can be operated through the receiver.
- Media App Control boots up as a music source for quicker access to iPod, iPhone or Android phone app control.

SIRI* EYES FREE COMPATIBLE

Smart voice control lets users access various iPhone functions to select music, make calls from a contact list, etc., without taking their eyes off the road.

* Siri is available on iPhone 4s or later, iPad with Retina display, iPad mini, and iPod touch (5th generation) and requires Internet access. Siri may not be available in all languages or in all areas, and features may vary by area. Cellular data charges may apply. Some features may not be available for all countries or all areas.

TWO-PHONE FULL TIME CONNECTION

You can connect two mobile phones (for personal and business use, for example) with the receiver, and an incoming call from either phone can be received without requiring manual switching.

PRESET STEERING WHEEL CONTROL

You can now use buttons on your car steering wheel to control certain car receiver functions. Setup is simple. Just choose your car brand name in the receiver's PRESET setting interface to automatically ensure compatibility of your vehicle's original steering wheel controller with the system.
