Key Selling Points

Versatile smartphone connectivity including Apple CarPlay, Android Auto, WebLink Cast**, and Smartphone mirroring***

Smooth connection by Wireless CarPlay* and Android Auto Wireless*

High-performance AV features

*Service is not available in all areas

**Mirroring through WebLink Cast is supported in both compatible iPhone and Android devices.

***Smartphone Mirroring is based on AutoLink for Android only.

Apple CarPlay Wired & Wireless

Apple CarPlay is a smarter, safer way to use your iPhone while you drive. And now with an all new Apple CarPlay Dashboard that helps you with tunes, turns, and Siri suggestions, a Calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier. And a lot more fun. The popular applications like Waze are supported.

Apple CarPlay requires iPhone 5 or newer with the latest version of iOS. Either "Made for iPod" or "Made for iPhone" means that an electronic accessory has been designed to connect specifically to iPod or iPhone and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Operations and functions may vary depending on iOS device or receivers.

Note: For availability in your country, please visit http://www.apple.com/ios/carplay

Android AutoTM Wired & Wireless

Android Auto extends the Android[™] platform into the car in a way that's purpose-built for driving. Android Auto automatically brings you useful information and organizes into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead. You can use the popular application like Waze.

Android Auto Wireless or Android Auto may not be available on all devices. Android Auto requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 8.0 ("Oreo") or higher for Android Auto Wireless or Android 5.0("Lollipop") or higher for Android Auto wired. Standard text messaging rates apply. Visit support. google.com/android auto for more information.

WebLink™

WebLink for Pioneer AV receivers expands in-car entertainment with an amazing world of apps. Enjoy personalized music, videos, and other connected content powered by your phone and the cloud.

Smartphone Minimum Requirements

In order for a smartphone to be compatible with WebLink, it must meet all of the following criteria:

- iPhones with iOS version 13.0 and above
- Android phones with Android ver.7.0 and above Only certified phones by WebLink as listed in the following site: https://support.google.com/googleplay/answer/1727131?hl=en
- Phone must have a hardware video decoder
- Minimum CPU: 1.5GHz Dual Core
- Minimum RAM: 2GB

Notes: WebLink operability currently under review. Please contact the local distributor for details.

FEATURES Connectivity AV RECEIVERS

WebLink™

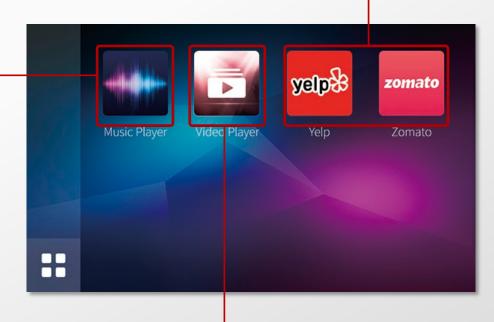

Music Player

Experience smarter and better in-car life by playing the music from your smartphone.

Search and information apps

You can use apps such as Yelp and Zomato directly from the AVH receiver, accessing important information inside your car more safely and conveniently.

Video playback

WebLink advances your capability to play back video. Watch video stored in a smartphone or streamed through the cloud on the AV receiver's large display. Use the FAVORITES button to instantly switch to the content you use most often. With the SEARCH button, you can easily search for content.

Simplified design featuring two large control icons ensures easy operation.

WebLink[™] and WebLink Cast[™] are trademarks of Abalta Technologies, Inc. Zomato is a trademark of Zomato Pvt Ltd. Genius Maps is a trademark of Mireo d.d.

WebLink Cast™

⊕WebLink_™

The latest version of WebLink (WebLink 2.0) enables smartphone mirroring with touch control on iOS and Android via WebLink Cast app.

■ Procedures

- 1 Install WebLink Host app to a compatible smartphone (iPhone/Android).
 - 1
- Connect the smartphone to a compatible receiver with USB cable.
- Touch WebLink Host app icon on the receiver screen.

Touch WebLink Cast appicon (WebLink 2.0 hardware only).

Mirroring various apps on iOS and Android with touch control

USB Mirroring

Mirroring for Android™

USB Mirroring lets you enjoy compatible smartphones apps in the car. You can operate USB Mirroring compatible applications with finger gestures such as tapping, dragging, scrolling, or flicking on the screen of the receiver.

- Available only for Android phones
- Compatible OS: Android ver. 5 and above (up to OS10 as of May, 2021)
- Launcher app "Autolink" required

■ Procedures

Enter the setup menu of the compatible receiver and touch "Mirroring" in the "Priority of Connectivity" setting.

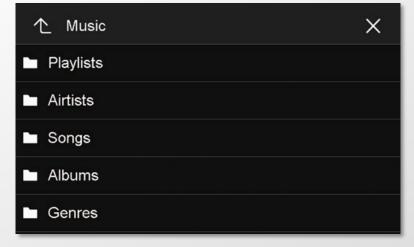

When connecting a smartphone, settings are automatically configured according to the device to be connected. Unlock the smartphone and touch "Mirroring" on the receiver's screen.

Built-in Bluetooth®

File Browsing can be used through AVRCP 1.6 version of Bluetooth. You can easily search songs in the browsing display.

Bluetooth

AVRCP Version 1.6

USB Quick Charge for Android (CDP)

Pioneer's AV receiver has a charging downstream port (CDP) providing up to 1.5 amperes to give an Android smartphone a quick charge.

Full HD Video from USB Devices

New AV receivers can play Full HD (1080p) video from files encoded in various digital formats that are stored in your easy-to-connect USB devices.

Compatible Codec* with USB Device

Codec	Extension	
VC-1	.wmv/.asf	1920 x 1080/45 Mbps
H.264	.mp4/.mkv/.mov/.flv/.avi/.m4v	1920 x 1080/40 Mbps
H.263	.mp4/.mov/.avi/.m4v	1920 x 1080/20 Mbps
MPEG-4	.mp4/.mkv/.mov/.avi/.divx/.m4v	1920 x 1080/40 Mbps
MPEG-2**	.mpeg/.mpg/.ts	720 x 576/40 Mbps

^{*} Playback capability for various content may change.
